OHSMS Implementation & E-Learning Toolkit

Occupational Health & Safety Management System (OHSAS 18001:2007)

ABOUT THE TOOLKIT

Occupational Health and Safety Assessment Series 18001:2007 is the standard to turn your company's concerns to actions in regards with work environment safety.

Implementing effective organizational Occupational Health and Safety Management System requires a team which is knowledgeable of best practices, a strong organizational management system and an infrastructure which supports the same. Some of the common challenges that companies face while implementing an OHSMS include:

- Failure to agree on what constitutes an OHSMS
- Lack of top management commitment (focus on other priorities, money, time)
- Lack of agreement on whether "health" is an entitlement
- Effective governance is heavily dependent on governmental "co-regulation" (failure to remember "trust but verify")
- Need to consider a "good enough" solution instead of the perfect solution

This OHSAS toolkit assists you in identifying and managing the health and safety problems in your worksite.

TESTIMONIALS

"We struggled to implement the ISO 27001 for more than 3 years. In spite of our staff attending any trainings on ISO 27001 but after we used the ISMS toolkit from ECCI, we were able to learn more about ISO 27001 through samples and templates provided in the toolkit, we implemented a very good information security management system based on ISO 27001 and got certified immediately."

"It was really helpful to combine toolkit with consulting for the project. The toolkit helped our company to save cost and finish the project faster than the projected timeline. Thank you ECCI!"

"According to our estimate it would take about 6 months time and about 3 resources to develop all the documents based on the ISO standard, and when we were introduced to the toolkit from ECCI, we found what we needed and could save a lot of money and time. The value of the toolkit is priceless but it comes at a very affordable price from ECCI, I would recommend it to any organization interested in ."
